Ultra high-SPL subwoofer for line array PC remote controlled with networking

Audio-Performance SUB800

The SUB800 is a high power compact subwoofer cabinet designed to extend the frequency range and power bandwidth of Audio Performance full-range loudspeaker systems. With a cut-off frequency of 25Hz, the SUB800 is made for applications where the reproduction of sub frequencies is of importance (music, sound effects).

It consists of two long excursion 18-inch ND cone drivers mounted in a heavily braced vented enclosure capable of accomodating up to 4'800W of power continuously.

It operates as a complete system with the AP44M20 amplifier.

When stacking several cabinets is necessary, the direct radiating loading of the SUB800 provides the optimal use of the coupling effect to increase the lowend sensitivity of a system.

The enclosure is black epoxy painted, fitted with handles. The front is protected by a heavy duty metal grill covered with charcoal grey foam.

The SUB800 comes equipped with flying hardware.

IDEAL FOR

Touring
Concerthall
Discotheques
Sound effects

The SUB800 subwoofer system is ideal for any professional application requiring accurate low frequency reinforcement at high sound pressure levels

Special Features

Very high power

25Hz cut-off frequency optimal LF coupling

With controller

Ethernet Networking

PC remote controlled

LINE ARRAY Series

SUB800 Specifications

ACOUSTICAL WITH CONTROLLER

Maximum peak SPL (2) 140dB

Power handling 2 x 1'200W (AES) (4)

Crossover frequency to full-range 120Hz

TRANSDUCERS

low distortion cone driver

System nominal impedance 2 x 8 Ohms

INPUT

MECHANICAL

Weight 98Kg

Rigging Aircraft L-track fittings, sides
