High power compact subwoofer system

Audio-Performance SUB3

The SUB3 is a high power compact subwoofer cabinet designed to extend the frequency range and power bandwidth of Audio Performance fullrange loudspeaker systems.

With a cut-off frequency of 32Hz, the SUB3 is made for applications where the reproduction of sub frequencies is of importance (music, sound effects).

It consists of two long excursion 15inch ND cone drivers mounted in a heavily braced vented enclosure capable of accommodating up to 1'800W AES of power continuously. It operates as a complete system with the ALC48 controller or with the AP44M10 or AP48M20 SMPSU Audio Power Amplifier.

When stacking several cabinets is necessary, the direct radiating loading of the SUB3 provides the optimal use of the coupling effect to increase the low end sensitivity of a system.

The enclosure is black epoxy painted. The front is protected by a heavy duty metal grill covered with charcoal grey foam.

Touring Concert halls Discotheques Sound effects

The SUB3 subwoofer system is ideal for any professional application requiring accurate low frequency reinforcement at high sound pressure levels.

high power handling 32Hz cut-off frequency processor controlled optimal LF coupling

SUB3 Specifications

Acoustical with controller

frequency response (1) 32 - 150 Hz

max. peak SPL (2) 136 dB

power handling 2 x 900W (AES) (4)

connectors

crossover frequency to full range system 120Hz

Transducers and electrical

transducer complement 2 x 15" ND long excursion cone drivers, ferrofluid cooled

system nominal impedance 2 x 8 Ohms

1 x Neutrik Speakon, model NL4MP 1+: DRV1 + 1-: DRV1 -2+: DRV2 + 2-: DRV2 -

Mechanical

cabinet shape rectangular

finish black epoxy painted front metal grill covered with charcoal grey foam **cabinet size (W x H x D)** 870 x 536 x 536 mm

weight 52.5 kg
